— HOMES —

PROPOSED WEB TYPE FACE | OSWALD REGULAR + TIENNE WEBFONTS

OSWALD (HEADER)

GOOGLE WEBFONT

GLYPH

Oo

CHARACTERS

ABCDEFGHIJKLMNOPQRSTUVWXYZ
TUVWXYZabcdefghijklmnopqrstuvwxyz1234567890
`?`"! "(%){#}[@]/&<-+*Ö2
"©\$£Û:;,*

DESIGN

Oswald is a reworking of the classic style historically represented by the ‘Alternate Gothic’ sans serif typefaces. The characters of Oswald have been re-drawn and reformed to better fit the pixel grid of standard digital screens. Oswald is designed to be used freely across the internet by web browsers on desktop computers, laptops and mobile devices.

TIENNE (BODY)

GOOGLE WEBFONT

GLYPH

Tt

CHARACTERS

ABCDEFGHIJKLMNOPQRSTUVWXYZ
TUVWXYZabcdefghijklmnopqrstuvwxyz1234567890
`?`"! "(%){#}[@]/&<-+*Ö/
"©\$£Û:;,*

DESIGN

Tienne is display and text serif webfont designed to be used freely across the internet by web browsers on desktop computers, laptops and mobile devices. It was designed by ‘remixing’ Droid Serif and Artifika, two other fonts in the Google Font Directory that are available under the SIL Open Font License which allows for remixing fonts with interpolation techniques.

WIREFRAMES

▲ HOME PAGE

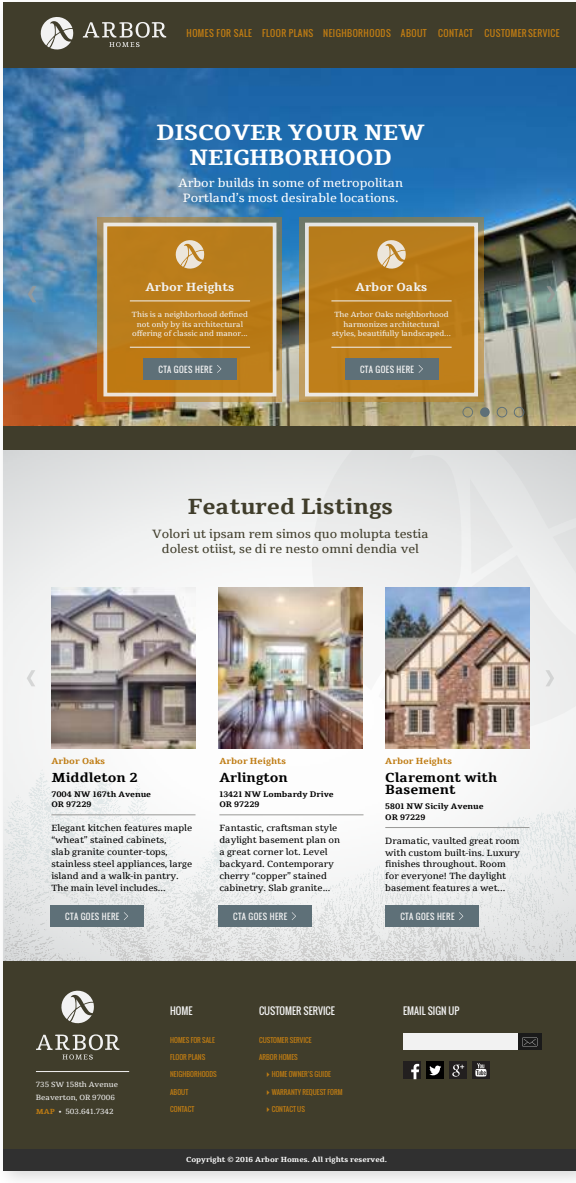

▲ LISTINGS PAGE

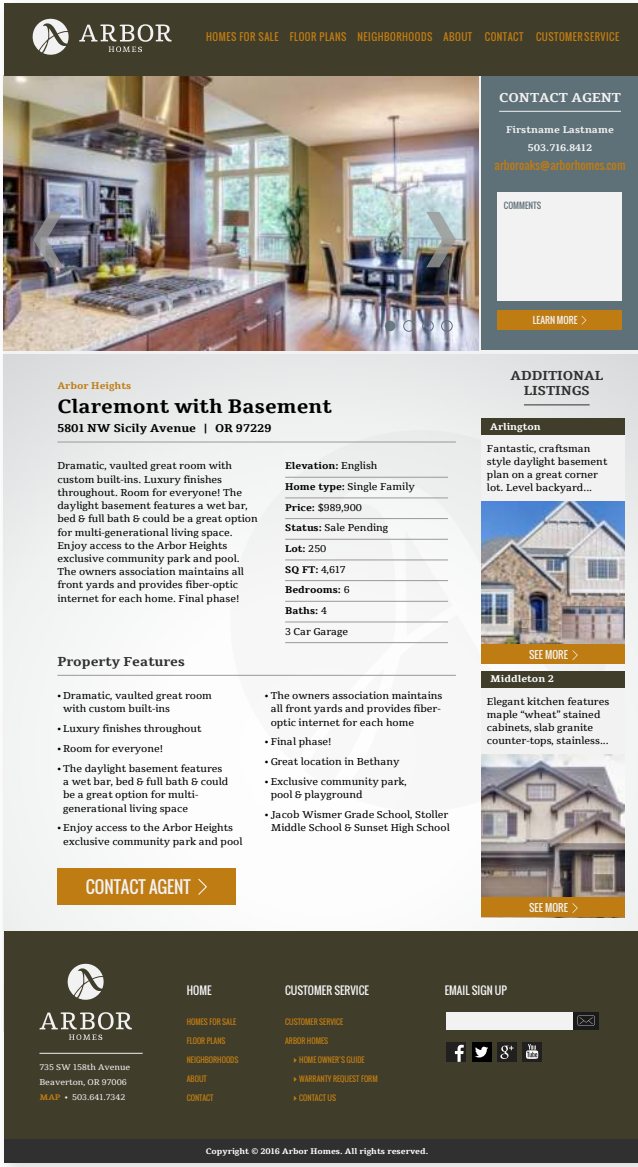

JUST A FEW NOTES ON THE WIREFRAMES:

- The homepage wireframe would feature a large slider image under the two neighborhood images. The slider could be static, rotate to a featured listing, or additional content.
- The featured listings on the homepage would be scrollable, so if there are more than 3 listings available at the time, a user could simply click the arrows to see all listings.
- On the listing wireframe, the first large area would be a pictures that a user would click to scroll through.
- If a user clicked the center of the picture, the photo would enlarge and go into a light box, full screen effect.
