EXPERIENCE

Multnomah Athletic Club | Portland, OR

Membership Manager | 11/2022 - 07/2026

- Directed the end-to-end membership lifecycle for a 22,000-member organization and \$35M recurring-revenue portfolio, spanning acquisition, onboarding, engagement, retention, and long-range planning.
- Delivered annual revenue within 1.0% of budget in Year 1, 1.1% in Year 2, and just 0.04% in Year 3 through disciplined forecasting and proactive revenue management.
- Increased membership conversion from 75% to 95%, improving progression through the funnel by 20 percentage points while tripling intermediate-stage conversions year over year.
- Replaced fragmented reporting with a Board-adopted decision framework connecting pipeline, member movement, revenue, forecasting, and budget performance, giving leadership one view to identify risk and guide five-year planning.
- Reduced departmental operating costs 35% year over year through process redesign, workflow improvements, and tighter resource management.
- Protected and recovered approximately \$500K in initiation-fee revenue by instituting monthly audits that identified unpaid fees and account-processing gaps.
- Rebuilt admissions from a legacy lottery into a forecastable membership pipeline, improving visibility into future demand and creating a more intentional prospective-member journey.
- Led and developed a four-person member experience team while coordinating cross-functional partners across the prospective- and new-member journey, establishing clear ownership for tours, onboarding, orientations, events, and lifecycle engagement.

Digital Operations and Marketing Manager | 03/2018 - 11/2022

- Led marketing operations across CRM, email, web, mobile, digital signage, print, and experiential channels, creating the infrastructure and operating practices needed to coordinate high-volume member communications across the organization.
- Built lifecycle communications across onboarding, activation, engagement, milestone moments, retention, and service recovery, connecting marketing strategy with customer behavior and operational workflows.
- Introduced behavior- and milestone-triggered CRM communications using member actions, account changes, and lifecycle events to improve relevance while reducing reliance on manual campaigns.
- Standardized recurring marketing workflows through reusable processes, templates, integrated technology, and AI-supported practices, making programs faster to produce and easier to manage consistently.
- Built audience-insight and reporting practices using engagement data, surveys, focus groups, and frontline feedback, helping stakeholders identify opportunities and make more informed customer and marketing decisions.
